CANADIAN AERONAUTICS AND SPACE JOURNAL

Index to Volume 20

No. 1	January	p 1-44	No. 6	June	p 269-320
No. 2	February	p 45-84	No. 7	September	p 321-394
No. 3	March	p 85-128	No. 8	October	p 395-438
No. 4	April	p 129-176	No. 9	November	p 439-470
No. 5	May	p 177-266	No. 10	December	p 471-508

PAGE

A

ACV, Icebreaking Trials with the Bell Aerospace Voyageur: D.O. Dutfield and D.F. Dickins 471
Aerospace Development, The Role of the Physician: D.A. Dellandrea 287
Aeroglisseurs Marins Naviplanes, Resultats d'Exploitation: P. Guienne 59
AGARD Announcements 27, 70, 117, 169, 259, 311, 359, 427, 461, 499
Aircraft Design for Flight Below the Sonic Boom Speed Limit: R.T. Jones 225
Aircraft Maintenance from a Regulatory Viewpoint, Canadian Civil: J.F. Mew and D.C. Parke 407
Aircraft Noise Relief Potential at Major Hub Airports: S. Sokolsky 129
Air Cushion Landing System on the de Havilland Buffalo Aircraft, Summary of the: L.H. Hildebrandt and K.H. Digges 93
Air Cushion Technology Program at the University of Toronto, The: P.A. Sullivan 269

PAGE

Air Cushion Vehicles, Soviet: J.S. Dibbern . 439
Airline's Approach to Obtaining Reliability Through Maintenance and Engineering Procedures, An: R.L. Lake 449
Airplane Manuals, Comments on: R.L. Newman 455
Airport – A Canadian Snafu, Unsiting a Major: I.M. Hamer 475
Air Transportation Systems, A Simulation Approach for Studying the Interactions of Noise, Patronage and Economic Viability: H. Solomon 143
Application of Solar Flare Forecasts to Satellite Launches: J.A.D. Holbrook . . . 489
Arctic, Industrialized Jets – and the: G.T. Barker 21
Atmospheric Gas Analyser, A Multi-Purpose Trace: J.A. Buckley, J.B. French, N.M. Reid 231
Attitude Dynamics of Canadian Satellites: P.C. Hughes 191

PAGE

B

Barker, G.F.: Industrialized Jets – and the Arctic 21
Bell Aerospace Voyageur ACV, Icebreaking Trials with the: D.O. Dutfield and D.F. Dickins 471
Benefiel, R.L., and J.L. Marinelli: Designing for Noise and Emission Control in General Aviation 85
Bernitt, C.L., and E.N. Brooks, Jr.: Twin-Cushion Surface Effect Vehicles 417
Billington, I.J.: The Wind Tunnel: Recent Developments and Trends for Aeronautical and Non-Aeronautical Testing . 234
Bird, W.H.S.: Noise and Atmospheric Emissions – An Airline View 295
Black, F.C.: R-NAV Systems Development for a STOL Application 51
Book Reviews:
Experimental Methods of Hypersonics: J. Lukasiewicz 29
Shock Waves and Man: I.I. Glass 315
Brooks, Jr., E.N., and C.L. Bernitt: Twin Cushion Surface Effect Vehicles 417
Buckley, J.A., J.B. French and N.M. Reid: A Multi-Purpose Trace Atmospheric Gas Analyser 231
Buffalo Aircraft, Summary of the Air Cushion Landing System on the de Havilland: K.H. Digges and L.H. Hildebrandt 93

C

Canadian Aerospace Abstracts 23, 69, 115, 165, 255, 307, 357, 425, 459, 497
Canadian Civil Aircraft Maintenance from a Regulatory Viewpoint: J.F. Mew and D.C. Parke 407
Canadian Sounding Rockets: Their History and Future Prospects: A.W. Fia 396
CASI Log 31, 73, 119, 171, 261, 317, 363, 431, 463, 501
CF101 Voodoo Aircraft, Depot Level Inspection and Repairs with Respect to the: A. Hyland 445
Cicci, F.: It's Quiet in Front 155
Comments on Airplane Manuals: R.L. Newman 455
Cosmic Dust at Altitudes Between 30 and 60 KM, A Device for Collecting: R. Wlochowicz 341
Cowley, F.R.: Improved Reliability of Turbine Engines Through Common Sense Maintenance 349

D

Dellandrea, D.A.: The Role of the Physician in Aerospace Development 287
Depot Level Inspection and Repairs with Respect to the CF101 Voodoo Aircraft: A. Hyland 445
Designing for Noise and Emission Control in General Aviation: J.L. Marinelli and R.L. Benefiel 85

PAGE

Device for Collecting Cosmic Dust at Altitudes Between 30 and 60 KM, A: R. Wlochowicz 341
Dibbern, J.S.: Soviet Air Cushion Vehicles . 439
Dickins, D.F., and D.O. Dutfield: Icebreaking Trials with the Bell Aerospace Voyageur ACV 471
Digges, K.H., and L.H. Hildebrandt: Summary of the Air Cushion Landing System on the de Havilland Buffalo Aircraft 93
Durvasula, S., and M.S.S. Prabhu: Thermal Buckling of Skew Plates 111
Dutfield, D.O., and D.F. Dickins: Icebreaking Trials with the Bell Aerospace Voyageur ACV 471

E

Ejector-Powered Lift Systems for V/STOL Aircraft: D.C. Whittley 179
Engineering Procedures, An Airline's Approach to Obtaining Reliability Through Maintenance and: R.L. Lake 449
Emissions – An Airline View, Noise and Atmospheric: W.H.S. Bird 295
Emission Control, Designing for Noise and: R.L. Benefiel and J.L. Marinelli 85
Emission Regulations on, Gas Turbine Combustor Design, Impact of: H.L. Morton and R.L. Marshall 101
Externally Blown Jet Flap: A Powered-Lift Concept for STOL, The: R.H. Wickens . 323

F

Fia, A.W.: Canadian Sounding Rockets: Their History and Future Prospects . . . 396
Flanders, J.D., R.L. Newman and J.J. Petraits: The Single-Engine Turboprop in the Northern Frontier 15
Flight Test of the Ski Equipped Mohawk: D.B. Small 1
French, J.B., N.M. Reid and J.A. Buckley: A Multi-Purpose Trace Atmospheric Gas Analyser 231

G

Gas Turbine Combustor Design, Impact of Emission Regulations on: H.L. Morton and R.L. Marshall 101
Gottlieb, J.J.: Sonic Boom Research at UTIAS 199
Guienne, P.: Resultats d'Exploitation des Aeroglisseurs Marins Naviplanes 59

H

Hamer, I.M.: Unsiting a Major Airport – A Canadian Snafu 475
Hardwick, C.D.: VLE Navigation Development at NAE 45

PAGE

Hildebrandt, L.H., and K.H. Digges: Summary of the Air Cushion Landing System on the de Havilland Buffalo Aircraft 93
Holbrook, J.A.D.: Application of Solar Flare Forecasts to Satellite Launches . . 489
Hughes, P.C.: Attitude Dynamics of Canadian Satellites 191
Hyland, A.: Depot Level Inspection and Repairs with Respect to the CF101 Voodoo Aircraft 445

I

Icebreaking Trials with the Bell Aerospace Voyageur ACV: D.O. Dutfield and D.F. Dickins 471
Impact of Emission Regulations on Gas Turbine Combustor Design: H.L. Morton and R.L. Marshall 101
Improved Reliability of Turbine Engines Through Common Sense Maintenance: F.R. Cowley 349
Industrialized Jets – and the Arctic: G.T. Barker 21
Inspection and Repairs with Respect to the CF101 Voodoo Aircraft, Depot Level: A. Hyland 445

J

Jets and the Arctic, Industrialized. G.T. Barker 21
Jet Flap: A Powered-Lift Concept for STOL, Externally Blown: R.H. Wickens 323
Jet Flap", Comment on "Investigation of Multi-Element Airfoils with External Flow: F. Mavriplis 303
Jones, R.T.: Aircraft Design for Flight Below the Sonic Boom Speed Limit 225

K

Kantrowitz, A.: The Relevance of Space . . 223

L

Lake, R.L.: An Airline's Approach to Obtaining Reliability Through Maintenance and Engineering Procedures 449
Landing System on the de Havilland Buffalo Aircraft, Summary of the Air Cushion: L.H. Hildebrandt and K.H. Digges 93
Letters to the Secretary:
13th Anglo-American Aeronautical Conference: I.M. Hamer 73
ACV Service Along Quebec North Shore: R.G. Wade 172
Lift Systems for V/STOL Aircraft, Ejector-Powered: D.C. Whittley 179

M

Macdonald, I.S.: The President's Message . . 321
Maintenance and Engineering Procedures, An Airline's Approach to Obtaining Reliability Through: R.L. Lake 449
Maintenance from a Regulatory Viewpoint, Canadian Civil Aircraft: J.F. Mew and D.C. Parke 407

PAGE

Manuals, Comments on Airplane: R.L. Newman 455
Marinelli, J.L., and R.L. Benefiel: Designing for Noise and Emission Control in General Aviation 85
Marshall, R.L., and H.L. Morton: Impact of Emission Regulations on Gas Turbine Combustor Design 101
Mew, J.F., and D.C. Parke: Canadian Civil Aircraft Maintenance from a Regulatory Viewpoint 407
Moorhouse, D.J.: Comment on "Investigation of Multi-Element Airfoils with External Flow Jet Flap" by F. Mavriplis . . 303
Morton, H.L., and R.L. Marshall: Impact of Emission Regulations on Gas Turbine Combustor Design 101
Multi-Purpose Trace Atmospheric Gas Analyser, A: J.A. Buckley, J.B. French and N.M. Reid 231

N

Newman, R.L.: Comments on Airplane Manuals 455
Newman, R.L., J.J. Petraits and J.D. Flanders: The Single-Engine Turboprop in the Northern Frontier 15
Noise and Atmospheric Emissions – An Airline View: W.H.S. Bird 295
Noise and Emission Control in General Aviation, Designing for: J.L. Marinelli and R.L. Benefiel 85
Noise, Patronage and Economic Viability for Air Transportation Systems, A Simulation Approach for Studying the Interactions of: H. Solomon 143
Noise Relief Potential at Major Hub Airports, Aircraft: S. Sokolsky 129

P

Parke, D.C., and J.F. Mew: Canadian Civil Aircraft Maintenance from a Regulatory Viewpoint 407
Petraits, J.J., J.D. Flanders and R.L. Newman: The Single-Engine Turboprop in the Northern Frontier 15
Physician in Aerospace Development, The Role of the: D.A. Dellandrea 287
Plasma Physics, Twenty-Five Years of: W.B. Thompson 245
Potential for STOL Air Service in Isolated Regions, The: D.B. Webber and D.J. Tighe 65
Prabhu, M.S.S., and S. Durvasula: Thermal Buckling of Skew Plates 111
President's Message, The: I.S. Macdonald . . 321

Q

Quiet in Front, It's: A.F. Toplis and F. Cicci 155

R

Reid, N.M., J.A. Buckley and J.B. French: A Multi-Purpose Trace Atmospheric Gas Analyser 231

PAGE

Relevance of Space, The: A. Kantrowitz . . 223
Resultats d'Exploitation des Aeroglisseurs Marins Naviplanes: P. Guienne 59
Rockets: Their History and Future Prospects, Canadian Sounding: A.W. Fia . . . 396
Role of the Physician in Aerospace Development, The: D.A. Dellandrea 287
R-NAV Systems Development for a STOL Application: F.C. Black 51

S

Satellites, Attitude Dynamics of Canadian: P.C. Hughes 191
Satellite Launches, Application of Solar Flare Forecasts to: J.A.D. Holbrook . . . 489
Simulation Approach for Studying the Interactions of Noise, Patronage and Economic Viability for Air Transportation Systems, A: H. Solomon 143
Single-Engine Turboprop in the Northern Frontier, The: R.L. Newman, J.J. Petraits and J.D. Flanders 15
Ski Equipped Mohawk, Flight Test of the: D.B. Small 1
Small, D.B.: Flight Test of the Ski Equipped Mohawk 1
Sokolsky, S.: Aircraft Noise Relief Potential at Major Hub Airports 129
Solar Flare Forecasts to Satellite Launches, Application of: J.A.D. Holbrook 489
Solomon, H.: A Simulation Approach for Studying the Interactions of Noise, Patronage and Economic Viability for Air Transportation Systems 143
Sonic Boom Research at UTIAS: J.J. Gottlieb 199
Sonic Boom Speed Limit, Aircraft Design for Flight Below the: R.T. Jones 225
Sounding Rockets: Their History and Future Prospects, Canadian: A.W. Fia 396
Soviet Air Cushion Vehicles: J.S. Dibbern . . 439
Space, The Relevance of: A. Kantrowitz . . 223
STOL Air Service in Isolated Regions, The Potential for: D.B. Webber and D.J. Tighe 65
STOL Application, R-NAV Systems Development for a: F.C. Black 51
STOL, The Externally-Blown Jet Flap: A Powered-Lift Concept for: R.H. Wickens 323
Sullivan, P.A.: The Air Cushion Technology Program at the University of Toronto . . 269
Summary of the Air Cushion Landing System on the de Havilland Buffalo Aircraft: L.H. Hildebrandt and K.H. Digges 93
Surface Effect Vehicles, Twin-Cushion: E.N. Brooks, Jr., and C.L. Bernitt 417
